

## PRECISIONSKIVED™

PTFE/Teflon® Coated Film Tape Silicone Adhesive

PRECISIONSKIVED™ is pure unsupported virgin polytetrafluoroethylene (PTFE/Teflon®) film/tape with all the characteristics of our PTFE/Teflon® coated fiberglass tape plus the advantage of being very conformable. It easily stretches and is often used to line large molds. This tape is coated with a high temperature resistant silicone adhesive system on one side.

### Features and Benefits

- Excellent release characteristics
- Low friction surface
- Operational and dimensionally stable from -100°F (-73° C) to +500°F (+260° C)
- Chemical resistant
- Abrasion resistant

### Physical Properties

Product Number	Nominal Thickness (mil)	Adhesive Thickness (mil)	Elongation (%)	Tensile Strength (lbs/inch)	Peel Strength (oz/inch)	Dielectric Strength (volts)
PC-3S Skived Film	3	2	125	8	40	10000
PC-5S Skived Film	5	2	200	15	35	12000
PC-10S Skived Film	10	2	250	30	45	14000+

These product properties are suggestive and all products can be customized or converted to fit specific application requirements. Please contact us to discuss your unique application needs.
